Disclaimer

Proper installation and servicing of the DIRECT AXCESS® Earth Loops in conjunction with the EarthLinked Heating and Cooling System or the EarthLinked Commercial Water Heating System is essential to its reliable performance. All DIRECT AXCESS® Earth Loops must be installed and serviced by an authorized, trained technician who has successfully completed the training class and passed the final examination. Installation and service must be made in accordance with the instructions in the current *EarthLinked Earth Loop Installation Manual*. Failure to provide installation and service by an authorized, trained installer in a manner consistent with the subject manual will nullify the limited warranty coverage for the system.

EarthLinked® Technologies shall not be liable for any defect, unsatisfactory performance, damage or loss, whether direct or consequential, relative to the design, manufacture, construction, application or installation of the field specified components.
