

Matching EarthLinked Products to Other Refrigerant Based Systems

1) Compatibility with North American Brands

COMPATIBLE

- ✔ EarthLinked (ECR Tech)
- ✔ AGT (ECR Industries)
- ✔ American Geothermal
- ✔ Earth Furnace (Lambert)
- ✔ Earth Source Energy
- ✔ Envirotherm
- ✔ Nordic (Maritime Geo)
- ✔ USPower
- ✔ GeoFurnace (Syndex)

UNCOMPATIBLE

- ✔ Earth to Air

UNDER REVIEW

- ✔ Earth Furnace (WFI)
- ✔ Jungwirth

2) Warranty

- The Earth Loop system shall not be warranted by EarthLinked
- Only install EarthLinked systems on compatible loop fields
- One year provisional warranty – EarthLinked components only
- After one full heating and cooling season without issues
 - Additional four years Part and Labor allowance – EarthLinked components only
- Warranty covers manufacturing defects only
- No system efficiency performance guarantee

3) Keep in mind

- Sell Compressor Unit and Air Handler combination
- Gather the facts before committing to the sale
- If the current system is not performing, it's likely a loop issue
 - We recommend you perform a Formation Thermal Conductivity (FTC) test – following guidelines detailed in IGHSPA Standards or ASHRAE – to test the loops
 - When performing this test, make sure to recover all the water from the loops
 - EarthLinked will launch a Waterless Field Testing Machine in 2016
- One sale will likely lead to another through referral
